

Leidos' Xpose Portable X-Ray System Named 2020 Silver Edison Award™ Winner

April 6, 2020

RESTON, Va., April 6, 2020 /PRNewswire/ -- [Leidos](#) (NYSE:LDOS), a FORTUNE® 500 science and technology leader, today announced that its Xpose portable x-ray system (Xpose XP) was named a Silver [2020 Edison Award™ Winner](#) in the Applied Technology category. The Edison Awards™, named after legendary inventor Thomas Edison, recognize and honor the world's best companies in new product and service development, marketing, human-centered design and innovation.

The Xpose XP is designed to help law enforcement, military, customs and security personnel search for and secure explosives, weapons, narcotics and other contraband. Utilizing a computed radiography imaging plate and patented digital radiography scanning system, Xpose XP supports rapid deployment in extremely tight spaces and near real-time image capture of small to large targets in a single downrange approach.

Edison Award™ nominees were judged by a panel of more than 3,000 leading business executives, including past award winners, academics and leaders in the fields of engineering, product development, design and science. The Leidos Xpose XP was recognized for its value to customers – delivering at half the cost of comparable systems.

"We are honored to be recognized by the Edison Awards™ for our work on the Xpose portable x-ray system," said Dave Robbins, Leidos Innovations Center (LIc) director. "This award highlights our important research for new product development as we continue working to solve our customer's toughest challenges."
