

## Leidos Awarded TSA Screening Equipment Contract

October 14, 2019

RESTON, Va., Oct. 14, 2019 /PRNewswire/ -- [Leidos](#) (NYSE:LDOS), a FORTUNE® 500 science and technology leader, was awarded a follow-on prime contract to continue providing maintenance, sustainment and logistics support services for the Transportation Security Administration's (TSA) checkpoint screening equipment. The single award, fixed unit price contract has a four-month base period of performance, four one-year options, followed by an eight-month option, and a total approximate value of more than \$926 million if all options are exercised. Work will be performed nationwide.

Leidos will support the sustainment of transportation security equipment owned and operated by TSA at checkpoints, which accounts for more than 10,000 pieces of passenger screening equipment at nearly 450 airports and other government facilities throughout the U.S. and its territories. Under the contract, the company will provide services that include: preventative, corrective, and depot maintenance; integrated logistics support, information technology infrastructure development and maintenance; and management of TSA's Service Response Center.

"For more than 15 years, we've provided the right people and solutions to help enable TSA's mission to ensure the freedom of movement for people and commerce," said Scott Gray, Leidos Homeland Security Solutions senior vice president. "We're honored to continue providing critical logistics support for a program of national importance that helps secure the homeland and protects our nation's transportation infrastructure."

### **About Leidos**
