

## Leidos Achieves CMMI Level 3 for Development

October 15, 2018

RESTON, Va., Oct. 15, 2018 /PRNewswire/ -- [Leidos](#) (NYSE: LDOS), a FORTUNE® 500 science and technology leader, today announced that the company earned an enterprise-wide Capability Maturity Model Integration for Development (CMMI-DEV) Maturity Level 3 rating. CMMI maturity levels provide benchmarks that allow customers to differentiate potential suppliers. This achievement is the result of Leidos consistently implementing a mature methodology for program execution and product realization that is compliant with industry best practices and creates a low risk, cost efficient environment for program success, while allowing the flexibility to permit innovation and rapid response to customer needs.

"This benchmark is one of many illustrations of Leidos' ongoing commitment to delivering products subjected to the highest quality standards, developed in accordance with mature management and engineering processes, by a team dedicated to continual improvement," said Karen Pierce, Vice President of Mission Assurance, noting that Leidos also maintains ISO registrations at over 50 facilities.

CMMI-DEV contains best practices used to guide the implementation of processes that foster continual improvement. Leidos earned CMMI-DEV Maturity Level 3 using the Standard CMMI Appraisal Method for Process Improvement (SCAMPI). The independent and comprehensive appraisal assessed the company's approaches to systems and software engineering, integration, maintenance, and management across the organization, and included a review of projects utilizing Agile and traditional development methodologies.

"The CMMI Maturity Level 3 distinction, combined with our investment in a common development environment, training, and best-in-class Secure DevOps practices strengthen our position to continue successfully addressing our customers' most challenging problems," said Dr. Jim Cantor, Leidos Chief Technology Officer.

### **About Leidos**
