

Leidos Named 'Best for Vets' Employer by Military Times

May 15, 2018

Company named to annual list for fifth consecutive year

RESTON, Va., May 15, 2018 /PRNewswire/ -- Leidos (NYSE: LDOS), a global science and technology leader, announced today Military Times named the company one of the "[Best for Vets Employers for 2018](#)." The annual list recognizes the top 100 U.S. companies across 30 industries committed to supporting military veterans and their families through culture, recruitment, and company policies.

"For Leidos, hiring veterans just makes sense," said Leidos Chief Human Resources Officer, Ann Addison. "Veterans understand what it means to view their work as a mission, leading to a strong work ethic and dedication to results. Leidos is much the same way. As a result, we're committed to not only hiring veterans, but supporting them and their families as they transition out of the uniform to the civilian workplace."

Military Times invited over 2,300 companies across the country to participate in a detailed survey about their company culture, veteran recruitment, military policies and accommodations for reservist employees. Culture and military recruitment efforts comprised roughly 34 percent of the total score, while company policies that support employees in the Guard and Reserve comprised about 20 percent, and policies for veterans comprised nearly 12 percent of the final score. Other criteria included the percentage of recruiting budget for veterans, onboarding rates, and whether the company accepts military experience instead of certification for hires.

Through its Operation Military Veteran Program, or [Operation MVP](#), Leidos is hiring, training, and supporting veterans. Since 2014, Leidos has hired over 5,100 veterans and military spouses, including over 1,800 hired last year. Currently about 1 in 5 Leidos employees is a veteran.

"Leidos is the federal government's leading IT and technology services provider and, therefore, a great landing spot for many of those transitioning out of active duty," Addison added. "Our largest customer is the Department of Defense, which can provide a smooth transition that can fully utilize a veteran's military experience, specialized training, and clearances."

In addition to the Best Vets Employer recognition, Leidos was recently named to [Forbes "America's Best Employers"](#) and [Forbes' "Best Employers for Diversity"](#) lists earlier this year. Leidos and a current veteran employee were also featured in a recent "[Military Makeover: Operation Career](#)" episode on the Lifetime Channel for the company's veteran outreach efforts. More information about "Life at Leidos" and available job opportunities in science, engineering and information technology can be found at <https://www.leidos.com/careers>.
