

## U.S. Army Selects Leidos to Continue Geospatial Intelligence Support with \$200 Million Contract

March 7, 2018

RESTON, Va., March 7, 2018 /PRNewswire/ -- [Leidos](#) (NYSE: LDOS), a FORTUNE 500® science, information technology, and engineering leader, was awarded a \$200 million hybrid contract (cost-plus-fixed-fee and firm-fixed-price) to support geospatial requirements, standards and systems across the U.S. Army. The multiple-award, follow-on contract has a potential five-year period of performance and work will be performed in Alexandria, Va.

Under the contract, Leidos will continue to provide technologies and expertise to support the U.S. Army's ongoing geospatial research, integration, development, and operational requirements at the U.S. Army Geospatial Center (AGC) at Fort Belvoir. Leidos will also develop geospatial enterprise-enabled systems for the Army and other Department of Defense (DOD) and non-DOD entities.

"We are proud of the twenty five years of support we've provided to the Army's geospatial work, helping deliver innovative intelligence capabilities into the hands of the Army warfighter," said Mike Chagnon, Leidos Advanced Solutions Group President. "Across the geospatial community, Leidos continues to innovate on behalf of our customers, delivering technologies and expertise focused on their unique missions."

### **About Leidos**
