

Naval Surface Warfare Center Carderock Division Awards Leidos Prime Contract

January 2, 2018

Company to Support Southeast Alaska Measurement Facility Signature Silencing Program

RESTON, Va., Jan. 2, 2018 /PRNewswire/ -- [Leidos](#) (NYSE: LDOS), a FORTUNE 500® science, information technology, and engineering company, was awarded a prime contract by the Naval Surface Warfare Center Carderock Division (NSWCCD) to support the Southeast Alaska Measurement Facility (SEAFAC) signature silencing program. The single-award, cost-plus fixed-fee, indefinite-delivery/indefinite-quantity contract has a five year period of performance and a total contract value of approximately \$42 million. Work will be performed primarily in Ketchikan, Alaska, and Poulsbo, Wash.

NSWCCD provides support for technical products over a wide range of scientific areas related to surface and undersea platforms including maritime science and technology. As the Navy's primary acoustic engineering measurement facility in the Pacific, SEAFAC provides the capability to perform evaluations to determine the sources of radiated acoustic noise, to assess vulnerability, and to develop quieting measures.

Leidos has supported SEAFAC for more than 20 years with expertise in submarine acoustics, civil, naval, architecture, ocean, mechanical, electrical, and electronic engineering, program management, and complex logistics in remote locations. Under the contract, Leidos will continue to provide logistics, maintenance, operations, and program management assistance services in support of Navy and Marine signature silencing programs for naval ships and undersea systems. Leidos supports the operations and maintenance of SEAFAC during and between acoustic trials, including the operation, maintenance, and repair of all SEAFAC assets and support systems, as well as provide communications and emergency services.

"We look forward to continuing to provide innovative logistics, maintenance and operations expertise to ensure SEAFAC is able to maintain a technical advantage in undersea systems," said Leidos Group President Mike Chagnon.

About Leidos

Leidos is a Fortune 500® science and technology solutions and services leader working to solve the world's toughest challenges in the defense, intelligence, homeland security, civil, and health markets. The company's 32,000 employees support vital missions for government and commercial customers. Headquartered in Reston, Virginia, Leidos reported annual revenues of approximately \$7.04 billion for the fiscal year ended December 30, 2016. For more information, visit www.Leidos.com.

Statements in this announcement, other than historical data and information, constitute forward-looking statements that involve risks and uncertainties. A number of factors could cause our actual results, performance, achievements, or industry results to be very different from the results, performance, or achievements expressed or implied by such forward-looking statements. Some of these factors include, but are not limited to, the risk factors set forth in the company's Annual Report on Form 10-K for the period ended December 30, 2016, and other such filings that Leidos makes with the SEC from time to time. Due to such uncertainties and risks, readers are cautioned not to place undue reliance on such forward-looking statements, which speak only as of the date hereof.
