

QTC Management Awarded Prime Contract by Department of Labor

July 13, 2017

DIAMOND BAR, Calif., July 13, 2017 /PRNewswire/ -- [QTC Management](#), a [Leidos](#) company (NYSE:LDOS), has been awarded a prime contract by the U.S. Department of Labor (DOL) to continue to provide Contract Medical Consultants (CMCs) to support the DOL Division of Energy Employees Occupation Illness Compensation (DEEOIC) within the Office of Workers' Compensation Programs (OWCP). The single-award indefinite-delivery/indefinite-quantity firm fixed-price contract has a one-year base period of performance, four one-year options, and a total contract value of approximately \$15 million if the Department exercises all options. Work will be performed in Diamond Bar, California.

The mission of the DEEOIC of DOL OWCP is to provide occupational illness benefits authorized by the Energy Employees Occupational Illness Compensation Program Act (EEOICPA). DEEOIC is responsible for adjudicating and administering claims filed by Department of Energy current and former federal and contract employees or certain qualified survivors under the Act. Under the follow-on contract, QTC continues to recruit qualified physicians to serve as CMCs. The company is also working to maintain the high quality of medical review outcomes by its CMCs with quality-control measures including case screening, internal auditing, and workload analysis.

"We look forward to continuing to provide quality, timely, and cost-effective solutions that enable the DOL OWCP to achieve mission success. Our team and CMC physicians will continue to expeditiously deliver the services required by DEEOIC to assist the claims examiners to adjudicate and manage claims," said QTC President Grant Kim.

About QTC Management

QTC Management, Inc., acquired by Leidos in 2016, partners with each customer to identify existing and forecasted program needs and delivers a full complement of disability-focused medical examination and diagnostic testing services. Since 2000, QTC has provided more than 4.5 million physical examinations and diagnostic tests.
