

Leidos Awarded Distributed Common Ground System - Navy Prime Technical Support Contract

May 22, 2017

Company to Continue to Provide Technical Expertise to the Space and Naval Warfare Systems Command Systems Center Atlantic

RESTON, Va., May 22, 2017 /PRNewswire/ -- [Leidos](#) (NYSE: LDOS), a global science and technology company, was awarded a prime contract by the Space and Naval Warfare Systems Command (SPAWAR) Systems Center Atlantic to provide technical expertise to sustain and update Distributed Common Ground System – Navy (DCGS-N) Family of Systems (FoS). The single-award cost-plus fixed-fee contract has a one-year base period of performance, a single year option, and a total contract value of approximately \$43 million if the option is exercised. Work will be performed primarily in Charleston, S.C., Suitland, Md., Norfolk, Va., San Diego, Calif., and Fallon, Nev.

DCGS-N is the Navy's shipboard and ashore intelligence enterprise, providing primary intelligence, surveillance, reconnaissance, and targeting support capability. Afloat or ashore, DCGS-N tools are critical for the operational commander's battlespace awareness and netcentric operations. Under the follow-on contract in support of DCGS-N FoS, Leidos will provide technical assessment and evaluation, program definition, organization, and direction including the development of long and short-range plans. This includes the responsibility for formulating, guiding, and directing the evaluation approach; and defining and negotiating with agency personnel for the necessary resources.

"Leidos has demonstrated innovative technical expertise and guidance for DCGS-N since the program's inception more than ten years ago," said Leidos Defense & Intelligence President Tim Reardon. "We look forward to applying our integrated multi-service systems engineering approach to provide SPAWAR the best solutions to remain interoperable with other service DCGS FoS."

About Leidos

Leidos is a global science and technology solutions and services leader working to solve the world's toughest challenges in the defense, intelligence, homeland security, civil, and health markets. The company's 32,000 employees support vital missions for government and commercial customers.
