

Leidos National Security Expert to Present at ISR Automation Symposium

September 22, 2015

(Reston, Va.) September 22, 2015 – Senior Vice President and Chief Systems Architect Rob Zitz of [Leidos](#) will present at the Intelligence, Surveillance and Reconnaissance (ISR) Automation Symposium to be held September 24-25 at the Holiday Inn Rosslyn in Arlington, Virginia.

Organized and presented by the Technology Training Corporation and the American Institute of Engineering, the ISR Automation Symposium is a two-day program that brings together leading government, industry and academia experts in the ISR field who discuss critical needs and recent technological advances. The symposium features more than 20 presentations from senior officials representing the department of defense, intelligence community, industry and universities.

Zitz will present on “Enabling Anticipatory Intelligence” on Friday, September 25th. His remarks will highlight key technology solutions for modeling and forecasting instability worldwide, enabling government planners to refine their intelligence systems and resource allocations.
