

Leidos Names Martin Miner Chief Information Officer

August 31, 2015

RESTON, Va., Aug. 31, 2015 /PRNewswire/ -- [Leidos](#) (NYSE: LDOS), a national security, health, and engineering solutions company, today announced the appointment of Martin Miner as senior vice president and chief information officer (CIO). Miner will report to Chief Technology Officer Gulu Gambhir. In his new role, Miner will be responsible for the direction of the company's information technology (IT) infrastructure and associated projects, improvement initiatives, and technology investments in support of the business.

Miner has held numerous senior management positions during his 18-year tenure with Leidos. Most recently he was the chief strategy officer for the Integrated Systems Group in the company's National Security Sector, where he provided oversight and coordination for strategic growth areas including command and control, infrastructure protection, and cybersecurity. Miner has also served as Senior Vice President for the company's Commercial Critical Infrastructure Operation; Chief Executive Officer/Chief Operating Officer/President for former-Leidos subsidiary CloudShield Technologies Inc.; and Senior Vice President for the company's IT Deployment Operation providing CIOs and customers with information technology infrastructure support. Prior to Leidos, Miner was a manager for GE Aerospace/Martin Marietta and a Consulting Regional Manager for Texas Instruments Software.

"Marty's experience spans across the intelligence community, the Department of Defense, federal, state and local, and commercial and international customers," said Leidos Chairman and Chief Executive Officer Roger Krone. "He brings operational excellence, domain expertise, and a deep appreciation for what the organization needs from both a line and enterprise perspective. His unique skillset will enable him to improve the company's technological infrastructure."

Miner holds a B.S. in both Computer Science and Mathematics from the U.S. Air Force Academy. He served in the Air Force for 10 years, and served another 14 years in the Air Force Reserves where he retired as a Lieutenant Colonel. While on active duty, he earned an M.S. in Operations Research from the Air Force Institute of Technology. Miner is also a graduate of the University of Virginia Darden Business School "The Executive Program".

About Leidos

Leidos is a science and technology solutions leader working to address some of the world's toughest challenges in national security, health and engineering. The Company's 19,000 employees support vital missions for government and the commercial sector, develop innovative solutions to drive better outcomes and defend our digital and physical infrastructure from 'new world' threats. Headquartered in Reston, Virginia, Leidos reported annual revenues of approximately \$5.06 billion for its fiscal year ended January 30, 2015. For more information, visit www.Leidos.com.

Statements in this announcement, other than historical data and information, constitute forward-looking statements that involve risks and uncertainties. A number of factors could cause our actual results, performance, achievements, or industry results to be very different from the results, performance, or achievements expressed or implied by such forward-looking statements. Some of these factors include, but are not limited to, the risk factors set forth in the company's Annual Report on Form 10-K for the period ended January 30, 2015, and other such filings that Leidos makes with the SEC from time to time. Due to such uncertainties and risks, readers are cautioned not to place undue reliance on such forward-looking statements, which speak only as of the date hereof.
