

Leidos Logistics Solutions Operation Appraised At Capability Maturity Model Integration (CMMI) Maturity Level 3

April 2, 2014

RESTON, Va., April 2, 2014 /PRNewswire/ -- Leidos (NYSE: LDOS), a national security, health and engineering solutions company, announced the Logistics Solutions Operation (LSO) has been appraised at Level 3 of the CMMI Institute's Capability Maturity Model Integration (CMMI). CMMI is a process improvement approach that provides organizations with the essential elements of effective processes that ultimately improve their performance.

LSO delivers products and services that sustain global, mission-critical logistics efforts. A CMMI maturity Level 3 demonstrates LSO's commitment to deliver continuous improvement for our customers. LSO is a recognized market innovator, delivering integrated logistics support and functional logistics systems management, high performance, enhanced operational availability, and cost reduction.

"The continuation of our CMMI Level 3 rating reflects the consistent value we've demonstrated and our commitment to providing quality standards and industry best practices," said Larry Hill, Leidos group president.

An appraisal at maturity level 3 indicates the organization is performing at a "defined" level. At this level, processes are well characterized and understood, and are described in standards, procedures, tools, and methods. The organization's set of standard processes, which is the basis for maturity level 3, is established and improved over time.

CMMI is the result of more than 20 years of ongoing work at Carnegie Mellon University by members of industry, government, and the Software Engineering Institute. Powered by Carnegie Mellon, the CMMI Institute is working to build upon CMMI's success, advance the state of the practice, accelerate the development and adoption of best practices, and provide solutions to the emerging needs of businesses around the world.

About Leidos

Leidos is a science and technology solutions leader working to address some of the world's toughest challenges in national security, health, and engineering. The Company's 22,000 employees support vital missions for our government and the commercial sector, develop innovative solutions to drive better outcomes, and defend our Nation's digital and physical infrastructure from 'new world' threats. Headquartered in Reston, Va., Leidos had annual revenues of approximately \$5.77 billion for its fiscal year ended January 31, 2014, following the spin-off of the company's technical services and information technology business. For more information, visit www.Leidos.com.

Statements in this announcement, other than historical data and information, constitute forward-looking statements that involve risks and uncertainties. A number of factors could cause our actual results, performance, achievements, or industry results to be very different from the results, performance, or achievements expressed or implied by such forward-looking statements. Some of these factors include, but are not limited to, the risk factors set forth in the company's Annual Report on Form 10-K for the period ended January 31, 2014, and other such filings that Leidos makes with the SEC from time to time. Due to such uncertainties and risks, readers are cautioned not to place undue reliance on such forward-looking statements, which speak only as of the date hereof.
