

SAIC Awarded Contract By United States Space And Naval Warfare Systems Center Atlantic

June 12, 2013

Company to Provide Electronics and Communications Services and Solutions

MCLEAN, Va., June 12, 2013 /PRNewswire/ -- Science Applications International Corporation (SAIC) [NYSE: SAI] announced it was awarded a prime contract by the U.S. Space and Naval Warfare Systems Center (SSC) Atlantic to provide electronics and communications services and solutions in support of mission capabilities within the Decision Superiority (DS) Portfolio. The multiple-award, indefinite-delivery/indefinite-quantity contract has a one-year base period of performance, four one-year options, and a total contract value of approximately \$900 million for all awardees, if all options are exercised. Work will be performed in Charleston, S.C., and locations worldwide, including the Middle East.

SSC Atlantic's DS Portfolio is dedicated to engineering and the development of command and control systems, and application development for command; control, and decision support systems enabling utilization of information; and decision aids.

Under the contract, SAIC will provide full-system, life-cycle support, including research, development, test and evaluation, as well as the production and fielding of sustainable, secure, survivable and interoperable command, control, communications, computers, combat systems, intelligence, surveillance, reconnaissance (C5ISR), information operations, enterprise information services and space capabilities. SAIC is one of 15 awardees that will compete for task order under the contract.

"SAIC has a deep breadth of knowledge and is considered one of the top industry experts for life-cycle support on a variety of platforms," said Tom Watson, SAIC customer group senior vice president. "The work we perform supporting the full life-cycle of C5ISR ultimately helps keep SSC Atlantic on the cutting-edge and strengthens the defense of our nation."

About SAIC

SAIC is a FORTUNE 500[®] scientific, engineering, and technology applications company that uses its deep domain knowledge to solve problems of vital importance to the nation and the world, in national security, energy & environment, health and cybersecurity. The company's approximately 38,000 employees serve customers in the U.S. Department of Defense, the intelligence community, the U.S. Department of Homeland Security, other U.S. Government civil agencies and selected commercial markets. Headquartered in McLean, Va., SAIC had annual revenues of approximately \$11.2 billion for its fiscal year ended January 31, 2013. For more information, visit saic.com.
