

SAIC Awarded Contract By United States Space And Naval Warfare Systems Center Atlantic

January 14, 2013

Company to Provide C5ISR Production, Installation, and In-Services Support for Surface, Shore and Subsurface Platforms

MCLEAN, Va., Jan. 14, 2013 /PRNewswire/ -- Science Applications International Corporation (SAIC) [NYSE: SAI] announced it was awarded a prime contract by the U.S. Space and Naval Warfare Systems Center (SSC) Atlantic to provide production, installation and in-services support for command, control, communications, computers, combat systems, intelligence, surveillance, and reconnaissance (C5ISR) capabilities for subsurface and surface platforms. The multiple-award, indefinite-delivery/indefinite-quantity contract has a one-year base period of performance, four one-year options, and a total contract value of approximately \$899 million if all options are exercised, for all awardees.

SSC Atlantic's engineering centers support the U.S. Department of Defense and other federal agencies. Its primary mission is to provide cybersecurity, adaptive response, and engineering excellence by delivering secure, integrated, and innovative solutions to U.S. naval, joint, and national agencies.

Under the contract, SAIC will provide production, installation, in-service support, life-cycle logistics, training, and large-scale integration efforts to deliver and sustain superior C5ISR mission capabilities for surface, shore and sub-surface platforms. In addition, the company will provide and support enterprise engineering, test planning and execution to enable delivery and acceptance of integrated systems in support of operational C5ISR capability requirements. SAIC is one of seven contractors eligible to compete for task orders under the contract.

"We look forward to providing SSC Atlantic with expertise in production, installation, life-cycle logistics, training, and large-scale integration capabilities," said Jim Thigpen, SAIC senior vice president and business unit general manager. "SAIC welcomes the opportunity to continue to deliver and sustain superior C5ISR mission capabilities."

About SAIC

SAIC is a FORTUNE 500® scientific, engineering, and technology applications company that uses its deep domain knowledge to solve problems of vital importance to the nation and the world, in national security, energy & environment, health and cybersecurity. The company's approximately 40,000 employees serve customers in the U.S. Department of Defense, the intelligence community, the U.S. Department of Homeland Security, other U.S. Government civil agencies and selected commercial markets. Headquartered in McLean, Va., SAIC had annual revenues of approximately \$10.6 billion for its fiscal year ended January 31, 2012. For more information, visit saic.com.
