

## SAIC Names Mary Craft Deputy Business Unit General Manager

March 7, 2012

Craft to Support the Company's Mission Support Business Unit

---

MCLEAN, Va., March 7, 2012 /PRNewswire via COMTEX/ --Science Applications International Corporation (SAIC) [NYSE: SAI] announced today that Mary Craft will serve as Deputy Business Unit General Manager of the company's Mission Support Business Unit, effective March 12.

Led by General Manager Larry Hill, the business unit's capabilities include a complete suite of geospatial intelligence and production services; intelligence analysis and operation support fused with technical expertise, field operation tradecraft, and full spectrum analytical and mission support; and human language services, including language technology tempered with human translation capabilities and education and training support.

With more than twenty-five years of industry and business leadership experience within the intelligence sector, Craft most recently served as Senior Vice President, QinetiQ North America, supporting Department of Defense and Intelligence Community markets, as well as selling solutions to the commercial sector for their Intelligence Security and Defense Division. She also previously served as a vice-president with General Dynamics Advanced Information Systems, where she performed strategic planning and new business development for their Surveillance and Reconnaissance business unit as well as their Intelligence Engineering line of business. Prior to that, she was a program manager at Raytheon Systems.

"Mary's broad spectrum of experience, beginning as an engineer, program manager and then a senior profit and loss manager, coupled with her expertise in the development and manufacturing business for multiple major defense contractors, make her the ideal candidate to help advance our business and grow our workforce across both commercial and federal sectors," said Hill.

Craft holds a B.S. in electrical engineering from Wichita (KS) State University and an MBA from The George Washington University.

**About SAIC** SAIC is a FORTUNE 500® scientific, engineering, and technology applications company that uses its deep domain knowledge to solve problems of vital importance to the nation and the world, in national security, energy & environment, health, and cybersecurity.
