

City of Memphis, Tennessee Awards SAIC \$37 Million Information Technology Services Contract

October 4, 2011

Company to Provide Comprehensive Information Technology (IT) Solution Suite to Assist City Modernization of Information Capabilities and Citizen Services

MCLEAN, Va., Oct. 4, 2011 /PRNewswire via COMTEX/ --

Science Applications International Corporation (SAIC) (NYSE: SAI) announced today it was awarded a prime contract by the City of Memphis, Tenn. to provide comprehensive information technology (IT) services and solutions to the City's Division of Information Services. The single award contract has a five year base period of performance, two one-year options, and a total contract value of \$37 million if all options are exercised.

The Information Services Division manages the city's use of IT infrastructure and systems in the operations and delivery of services to its citizens. Under the contract, SAIC will provide IT solutions in areas including service desk and deskside services; network, cybersecurity and telecommunications support; data center management, and applications maintenance and development. SAIC will also help modernize the city's IT infrastructure to enable greater capabilities, lower costs and strengthen the City's security posture. The contract will provide opportunities for local minority businesses with over 30% of the contract being delivered by local firms.

"We are proud to be selected by the City of Memphis to implement world class, scalable and flexible IT solutions that enable them to move to a contemporary IT-managed services model while providing enhanced capabilities across their agencies to improve citizen services," said Doug Wagoner, SAIC senior vice president and business unit general manager. SAIC has a long history of providing IT services and solutions to large public sector clients across the U.S.

About SAIC
