

SAIC Awarded \$20 Million Design-Build Contract to Support San Diego County Regional Airport Authority

August 24, 2011

Company to Provide Design, Engineering, Installation, Testing and Commissioning Services at the San Diego International Airport

MCLEAN, Va., Aug. 24, 2011 /PRNewswire via COMTEX/ --

Science Applications International Corporation (SAIC) (NYSE: SAI) announced today it was awarded a contract by Turner PCL Flatiron to provide design, engineering, installation, testing, and commissioning services of the security systems for the San Diego County Regional Airport Authority. The design-build contract has a 30-month period of performance and a value of \$20 million.

The San Diego Airport Authority works to improve the efficiency, safety, and security of operations, while managing day-to-day activities and addressing the region's long-term air transportation needs. Under the contract, SAIC will provide design-build services for security, network, and building and maintenance management systems.

"We look forward to playing a key role in the terminal expansion and implementation of a common use systems model at the San Diego International Airport," said JT Grumski, SAIC senior vice president and business unit general manager. "These integrated solutions will bring the right people, technology, and systems together to provide a foundation for converged network, security, building management, and enterprise asset management systems throughout the airport."

About SAIC

SAIC is a FORTUNE 500® scientific, engineering, and technology applications company that uses its deep domain knowledge to solve problems of vital importance to the nation and the world, in national security, energy and the environment, critical infrastructure, and health.
