

SAIC Awarded Contract to Support Naval Air Systems Command

April 12, 2010

Company to Provide Professional and Analytical Support Services to NAVAIR's Corporate Operations and Comptroller Offices

MCLEAN, Va., April 12, 2010 /PRNewswire via COMTEX News Network/ -- Science Applications International Corporation (SAIC) (NYSE: SAI) today announced it has been awarded a contract by the Naval Air Warfare Center Aircraft Division (NAWCAD) to support the Naval Air Systems Command (NAVAIR) Corporate Operations and Comptroller Offices with a full range of organizational and business services. The multiple award, indefinite-delivery/indefinite-quantity contract has a one-year base period of performance, four one-year options and a ceiling value of \$84 million for all awardees. Work will be performed in Patuxent River, Md. and at NAVAIR sites as required.

NAVAIR's Corporate Operations and Comptroller Office serves the U.S. Navy by providing a wide variety of business services to other competencies, commanding officers, site managers, and integrated project/program/enterprise teams. Under the contract, SAIC will provide professional and analytical support services to NAVAIR, as required, by defining and helping establish commercial business best practices to enable the NAVAIR Team to enhance performance and reduce costs. SAIC will also provide support in areas including management; organizational and business improvement; financial and business solutions; and human resources.

"We look forward to continuing our support of this important customer by helping NAVAIR enhance the support they provide to Naval warfighters including program management, strategic planning, and analytical and reporting capability services," said Debbie James, SAIC senior vice president and business unit general manager.

About SAIC

SAIC is a FORTUNE 500(R) scientific, engineering, and technology applications company that uses its deep domain knowledge to solve problems of vital importance to the nation and the world, in national security, energy and the environment, critical infrastructure, and health.
