

## U.S. Army Research, Development and Engineering Command Awards Contract To SAIC

March 2, 2010

Company to Provide CBRNE (Chemical, Biological, Radiological, Nuclear, and Explosive) services to the Edgewood Chemical Biological Center

---

MCLEAN, Va., March 2, 2010 /PRNewswire via COMTEX News Network/ -- Science Applications International Corporation (SAIC) (NYSE: SAI) today announced it has been awarded a contract by the U.S. Army Research, Development and Engineering Command (RDECOM) to support the Edgewood Chemical Biological Center (ECBC), and other customers, with CBRNE (chemical, biological, radiological, nuclear, and explosive) support services. The multiple award, indefinite-delivery/indefinite-quantity contract has a five year period of performance, and a total value of \$485 million for all awardees. Work will be performed at ECBC facilities on Aberdeen Proving Ground (APG), Md., at SAIC offices near APG, and at other customer sites as required.

ECBC is the nation's principal research and development center for chemical and biological warfare agent defense. It develops technology in the areas of detection, protection, and decontamination, and provides support over the entire lifecycle - from basic research through technology development, engineering design, equipment evaluation, product support, sustainment, field operations and disposal. Under the contract, SAIC will provide engineering, research and technology, and program and integration support services to ECBC and other customers including the Joint Program Executive Office for Chemical and Biological Defense (JPEOCBD), the U.S. Army Chemical Materials Agency (CMA), the Assembled Chemical Weapons Assessment (ACWA) program manager, the 20th Support Command, the Departments of Homeland Security (DHS) and Health and Human Services (DHHS), and the FBI.

"SAIC has been providing chemical and biological defense solutions for 30 years to Department of Defense elements," said John Ferriter, SAIC senior vice president and business unit general manager. "We look forward to leveraging our cumulative expertise, and providing science based, technical solutions to help these important customers enhance the Nation's defense against chemical and biological warfare and terrorism."

### About SAIC

SAIC is a FORTUNE 500(R) scientific, engineering, and technology applications company that uses its deep domain knowledge to solve problems of vital importance to the nation and the world, in national security, energy and the environment, critical infrastructure, and health. The company's approximately 45,000 employees serve customers in the U.S. Department of Defense, the intelligence community, the U.S. Department of Homeland Security, other U.S. Government civil agencies and selected commercial markets. Headquartered in McLean, Va., SAIC had annual revenues of \$10.1 billion for its fiscal year ended January 31, 2009. For more information, visit [www.saic.com](http://www.saic.com).
