

SAIC Awarded \$47 Million Subcontract to Support the Distributed Common Ground System - Army

May 15, 2008

Company to Provide Intelligence, Embedded Mentor and On-site Technical Services

SAN DIEGO and MCLEAN, Va., May 15, 2008 /PRNewswire-FirstCall via COMTEX News Network/ -- Science Applications International Corporation (NYSE: SAI) today announced it has been awarded a subcontract by Sensor Technologies, Inc. to provide advanced analytical and technical support on a task order for the Distributed Common Ground System - Army (DCGS-A). The task order, awarded under the Army's Strategic Services Sourcing (S3) contract, has a two-year period of performance. SAIC's subcontract has a value of more than \$47 million.

DCGS-A provides the U.S. Army with fully integrated and timely intelligence on the battlefield. SAIC will continue to support current DCGS-A system users while integrating new tactics, techniques and procedures and processes to help improve customer capabilities. Throughout the task order, SAIC will provide embedded mentor services to Army and DoD forces around the globe.

"SAIC has done work supporting DCGS-A for the past 2 years -- developing solutions, assisting in transformation efforts, and helping meet demanding mission requirements," said John Thomas, SAIC senior vice president and business unit general manager. "We look forward to continuing to deliver innovative technology solutions to DCGS-A that help provide actionable intelligence to the Warfighter."

SAIC has previously provided system development and analytical support for the Army under a different contract vehicle.

About SAIC

SAIC is a FORTUNE 500(R) scientific, engineering, and technology applications company that uses its deep domain knowledge to solve problems of vital importance to the nation and the world, in national security, energy and the environment, critical infrastructure, and health.
