

SAIC Awarded \$42 Million Task Order from Space and Naval Warfare Systems Command

April 3, 2008

SAIC to Support the JTRS Ground Domain

SAN DIEGO and MCLEAN, Va., April 3, 2008, 2008 /PRNewswire-FirstCall via COMTEX News Network/ -- Science Applications International Corporation (NYSE: SAI) announced today it has been awarded a task order from the Space and Naval Warfare Systems Command located in San Diego, to support the Joint Program Executive Office for the Joint Tactical Radio System (JTRS). This single-award contract has a one year base period of performance, four one-year options and a total contract value of more than \$42 million if all options are exercised. The award is a task order under the SeaPort-e contract.

SAIC will provide program management and engineering support services to assist the military in developing, producing and fielding the next generation of interoperable, digital, software-defined radios. Work will be performed in San Diego, Alexandria, Va., Fort Monmouth, N.J., and Aberdeen, Md.

"SAIC will help develop software and hardware, and will supply those software-defined radios into operational units," said Tom Baybrook, SAIC senior vice president and business unit manager. "This work will help enhance the technical communication capabilities of our troops as they continue to fight the global war on terror."

About SAIC

SAIC is a FORTUNE 500(R) scientific, engineering, and technology applications company that uses its deep domain knowledge to solve problems of vital importance to the nation and the world, in national security, energy and the environment, critical infrastructure, and health. The company's approximately 44,000 employees serve customers in the Department of Defense, the intelligence community, the U.S. Department of Homeland Security, other U.S. Government civil agencies and selected commercial markets. SAIC had annual revenues of \$8.9 billion for its fiscal year ended January 31, 2008. For more information, visit www.saic.com.
