

Leidos to deliver seamless, secure data sharing across Department of Defense mission networks

June 17, 2025

RESTON, Va., June 17, 2025 /PRNewswire/ -- By modernizing the Defense Information Systems Agency (DISA) tools that transfer critical data between classified and unclassified networks, [Leidos](#) (NYSE: LDOS) will help accelerate decision making across the Department of Defense (DoD).

Under a five-year, \$35 million award for the Cross-Domain Enterprise Services program, Leidos will integrate the design, engineering and operations of DISA's data-sharing platform to enable faster, more agile mission performance.

"Modern defense missions, driven by joint operations and real-time coordination, depend on the ability to transfer data across networks without delay or compromise," said Paul Welch, vice president and division manager at Leidos. "Our decades of expertise uniquely position us to deliver secure, scalable technology designed to support data reaching the right users at the right time."

This work demonstrates Leidos is a long-standing, critical partner to DISA in operating, sustaining and defending the DoD's enterprise network, which enables every U.S. defense mission globally.

The award is part of a Systems Engineering Technology and Innovation indefinite delivery/indefinite quantity contract.
