Forward-Looking Statements

Certain statements in this release contain or are based on "forward-looking" information within the meaning of the Private Securities Litigation Reform Act of 1995. In some cases, you can identify forward-looking statements by words such as "expects," "intends," "plans," "anticipates," "believes," "estimates," "guidance" and similar words or phrases. Forward-looking statements in this release include, among others, estimates of future revenues, adjusted EBITDA margins, diluted EPS (including on a non-GAAP basis) and cash flows provided by operating activities, as well as statements about future dividends, share repurchases, acquisitions and dispositions. These statements reflect our belief and assumptions as to future events that may not prove to be accurate.

Actual performance and results may differ materially from those results anticipated by our guidance and other forward-looking statements made in this release depending on a variety of factors, including, but not limited to: changes to our reputation and relationships with government agencies, developments in the U.S. government defense budget, including budget reductions, implementation of spending limits (sequestration) or changes in budgetary priorities; delays in the U.S. government budget process or approval of raises to the debt ceiling; delays in the U.S. government contract procurement process or the award of contracts; delays or loss of contracts as a result of competitor protests; changes in U.S. government procurement rules, regulations and practices; changes in interest rates and other market factors out of our control; our compliance with various U.S. government and other government procurement rules and regulations; governmental reviews, audits and investigations of our Company; our ability to effectively compete for and win contracts with the U.S. government and other customers; our reliance on information technology spending by hospitals/healthcare organizations; our reliance on infrastructure investments by industrial and natural resources organizations; energy efficiency and alternative energy sourcing investments; investments by the U.S. government and commercial organizations in environmental impact and remediation projects; our ability to attract, train and retain skilled employees, including our management team, and to obtain security clearances for our employees; the mix of our contracts and our ability to accurately estimate costs associated with our firm-fixed-price and other contracts; our ability to realize as revenues the full amount of our backlog; cybersecurity, data security or other security threats, systems failures or other disruptions of our business; resolution of legal and other disputes with our customers and others or legal or regulatory compliance issues; our ability to effectively acquire businesses and make investments; our ability to maintain relationships with prime contractors, subcontractors and joint venture partners; our ability to manage performance and other risks related to customer contracts, including complex engineering projects; the failure of our inspection or detection systems to detect threats; the adequacy of our insurance programs designed to protect us from significant product or other liability claims; our ability to manage risks associated with our international business; exposure to lawsuits and contingencies associated with the IS&GS Business; our ability to declare future dividends based on our earnings, financial condition, capital requirements and other factors, including compliance with applicable laws and contractual agreements; our ability to grow our commercial health and infrastructure businesses, which could be negatively affected by budgetary constraints faced by hospitals and by developers of energy and infrastructure projects; and our ability to execute our business plan and long-term management initiatives effectively and to overcome these and other known and unknown risks that we face. These are only some of the factors that may affect the forward-looking statements contained in this release. For further information concerning risks and uncertainties associated with our business, please refer to the filings we make from time to time with the U.S. Securities and Exchange Commission ("SEC"), including the "Risk Factors," "Management's Discussion and Analysis of Financial Condition and Results of Operations" and "Legal Proceedings" sections of our latest Annual report on Form 10-K and quarterly reports on Form 10-Q, all of which may be viewed or obtained through the Investor Relations section of our website at www.leidos.com.

All information in this release is as of April 30, 2019. The Company expressly disclaims any duty to update the guidance or any other forward-looking statement provided in this release to reflect subsequent events, actual results or changes in the Company's expectations. The Company also disclaims any duty to comment upon or correct information that may be contained in reports published by investment analysts or others.

Non-GAAP Financial Measures

This presentation includes certain non-GAAP financial measures, such as non-GAAP operating income, non-GAAP operating margin, non-GAAP effective tax rate, non-GAAP diluted earnings per share (EPS), adjusted earnings before interest, taxes, depreciation and amortization (EBITDA), adjusted EBITDA margin and free cash flow.

These are not measures of financial performance under generally accepted accounting principles in the U.S. ("GAAP") and, accordingly, these measures should not be considered in isolation or as a substitute for the comparable GAAP measures and should be read in conjunction with the Company's consolidated financial statements prepared in accordance with GAAP.

Management believes that these non-GAAP measures provide another measure of the Company's results of operations and financial condition, including its ability to comply with financial covenants. These non-GAAP measures are frequently used by financial analysts covering Leidos and its peers. The Company's computation of its non-GAAP measures may not be comparable to similarly titled measures reported by other companies, thus limiting their use for comparability.

Definition of Non-GAAP Financial Measures

Non-GAAP operating income is computed by excluding the following items from net income: (i) non-operating expense, net; (ii) income tax expense, and (iii) the following discrete items:

- ▶ Integration and restructuring costs - Represents integration, lease termination and severance costs related to the Company's acquisitions.
- ▶ Amortization of acquired intangible assets - Represents the amortization of the fair value of the acquired intangible assets.
- ▶ Amortization of equity method investment - Represents the amortization of the fair value of acquired equity method investment.
- ▶ Gain on sale of business – Represents the gain on sale of business.
- ▶ Asset impairment charges - Represents impairments of long-lived tangible assets.
- ▶ Other tax adjustments - Represents discrete tax items.

Non-GAAP operating margin is computed by dividing non-GAAP operating income by revenue.

Non-GAAP effective tax rate is computed by using the effective GAAP tax rate plus the tax impact of the non-GAAP items calculated using an estimated statutory tax rate.

Non-GAAP EPS is computed by dividing net income, adjusted for the discrete items as identified above and the related tax impacts, by the diluted weighted average number of common shares outstanding.

Adjusted EBITDA is computed by excluding the following items from income before income taxes: (i) discrete items as identified above; (ii) interest expense; (iii) interest income; (iv) depreciation expense; and (v) amortization of intangibles.

Adjusted EBITDA margin is computed by dividing adjusted EBITDA by revenue.

Free cash flow is computed by subtracting capital expenditures from cash flows from operations.
