Item 5.02 Departure of Directors or Certain Officers; Election of Directors; Appointment of Certain Officers; Compensatory Arrangements of Certain Officers.

On March 2, 2012, our Board of Directors elected K. Stuart Shea as our Chief Operating Officer. Mr. Shea, age 55, has served as our Group President for the Intelligence, Surveillance and Reconnaissance Group since October 2007. He previously served as Senior Vice President and General Manager of our Space and Geospatial Intelligence business unit from October 2005 to October 2007. Prior to joining us, Mr. Shea served as Vice President of Northrop Grumman Corporation's TASC Space and Intelligence operating unit from 1999 until 2005. Mr. Shea's business experience is more fully described in the press release furnished as Exhibit 99.1 to this report.

Our Board of Directors also elected John P. Jumper, age 67, as of President of the company on March 2, 2012, in addition to his recent election as our Chief Executive Officer. General Jumper served in the United States Air Force until 2005. As Chief of Staff, he served as the senior military officer in the Air Force and was a member of the Joint Chiefs of Staff, providing military advice to the Secretary of Defense, National Security Council and the President. He has served on our board of directors since 2007. General Jumper's election as our Chief Executive Officer was previously reported in our Current Report on Form 8-K filed on February 21, 2012.

Item 9.01 Financial Statements and Exhibits.

CEO Names SAIC Group President Stu Shea to Chief Operating Officer

MCLEAN, Va., Mar. 5, 2012 /PRNewswire via COMTEX/ —SAIC, Inc.'s (NYSE: SAI) announced today that Stu Shea, president of SAIC's Intelligence, Surveillance and Reconnaissance (ISR) Group, is the chief operating officer effective immediately. Shea currently leads nearly 13,000 scientists and engineers providing support for customers across the full spectrum of national security programs.

"Stu has dedicated his life to serving our nation by aligning his passion for leadership, mentoring, community service, and business performance all to build capabilities to serve our warfighters," said CEO John Jumper. "In doing so, Stu has distinguished himself through a successful combination of business and professional accomplishments that have served SAIC and the nation well."

"I am honored to have been selected as the COO of SAIC and am excited about working with John Jumper to face the challenges ahead in our industry," Shea said. "Also, I am grateful to be given the opportunity to work with an extraordinary leadership team in refining and executing our strategy for growth. I look forward to maximizing our operational performance for our shareholders as we continue to provide solutions vital to our customers' most important missions."

Prior to joining SAIC in October 2005, Shea served as vice president, Space and Intelligence, in the TASC Business Unit of Northrop Grumman Corporation. Under his leadership, the unit provided mission support to the 16 agencies under the purview of Office of the Director of National Intelligence and the Department of Defense's space superiority programs. Earlier in his career, he held several leadership positions with PAR Technology Corporation.

In 2003, Shea was named to the 12-member National Commission for the Review of the Research and Development Programs of the U.S. Intelligence Community, which was established by Congress to review the full range of current research and development programs in the intelligence community.

Shea currently serves as Chairman of the Board for two SAIC subsidiaries: CloudShield Technologies, Inc. and Science, Engineering and Technology Associates Corporation (SET), and previously served as Chairman of three others. He is the Chairman and CEO of the United States Geospatial Intelligence Foundation, a member of the University of Kansas College of Liberal Arts & Sciences Advisory Board, the Intelligence and National Security Alliance (INSA) Advisory Board, and has previously served as a Member of the Advisory Board of the University of Virginia's Department of Systems and Information Engineering. Shea is an internationally recognized author and has served on several major international refereed journal editorial boards. He served as a *Committee Member*, National Academy of Sciences, National Research Council, Commission on Engineering and Technical Systems, Marine Board. He is a former National Director, Cartography and Geographic Information Society, member of the Sustaining Member Council for the American Society for Photogrammetry and Remote Sensing, and is a *Fellow*, American Congress on Surveying and Mapping. Shea is a 2009 recipient of the Federal Computer Week Fed100 award for the top executives in the IT industry.

Shea received a Bachelor of Science degree from the State University of New York at Albany and a Master of Arts degree from the University of Kansas. In addition, he is a graduate of numerous executive education programs, including the Darden School of the University of Virginia, Harvard Business School, the Wharton School at the University of Pennsylvania, and The George Washington University's School of Business and Public Management.

About SAIC SAIC is a FORTUNE 500® scientific, engineering, and technology applications company that uses its deep domain knowledge to solve problems of vital importance to the nation and the world, in national security, energy & environment, health, and cybersecurity. The company's approximately 41,000 employees serve customers in the U.S. Department of Defense, the intelligence community, the U.S. Department of Homeland Security, other U.S. Government civil agencies and selected commercial markets. Headquartered in McLean, Va., SAIC had annual revenues of approximately \$11 billion for its fiscal year ended January 31, 2011. For more information, visit <http://www.saic.com/>.
